INSTRUCTIONS

The certified historic structure credit is available against income tax or corporate license tax for "qualified rehabilitation expenditures" to a "certified historic structure," as those terms are defined in IRC Section 47 and applicable treasury regulations. The credit is available if the expenditures are incurred in taxable years beginning after 2002 and if the property is placed in service after June 30, 2003. A rehabilitation project must meet all requirements for the federal 20% income tax credit under IRC Section 47.

For a period of up to five years, additional work done by the taxpayer must be consistent with the Secretary of the Interior's Standards for Rehabilitation. The State Historic Preservation Officer may review additional work and has the right to inspect. Additional work that the State Historic Preservation Officer deems inconsistent with the Standards for Rehabilitation will result in forfeiture of any unused credit amount, including any amounts carried forward.

The taxpayer may appeal to the State Review Board to review any determination by the State Historic Preservation Officer.

Complete a **separate TC-21 for each rehabilitated property**. If filing a paper return, attach a copy of the appropriate federal forms showing the amount of federal rehabilitation expenditures claimed. If filing an electronic return, keep a copy of them with your tax records.

Complete TC-22 if claiming a credit for rehabilitation expenses for a certified historic residential structure.

LINE 1: Enter the amount of rehabilitation expenditures that qualify under IRC Section 47, made to a certified historic structure located in South Carolina, placed in service during this tax year.

LINE 2: The SC credit amount is 10% of the amount qualifying under IRC Section 47.

LINE 3: The credit is claimed in equal installments over a 5-year period beginning with the tax year that the property is placed in service. Enter 20% of line 2 on line 3. If the property was placed in service in a prior year, enter the amount from line 3 of last year's TC-21.

LINE 4: Annual installments that exceed a taxpayer's tax liability can be carried forward for five consecutive years.

LINE 5: The total available credit is the amount of this year's annual installment plus any amount carried forward from prior years.

LINE 6: The allowable credit cannot exceed this year's tax liability.

LINE 7: The allowable credit is the lesser of the available credit and this year's tax liability.

LINE 8: The amount of available credit you are unable to use this tax year is the amount you are allowed to carry forward for five consecutive years.

NOTE: When earned by an 'S' corporation owing corporate level income tax, the credit must be used first at the entity level. Any remaining credit passes through to each shareholder in a percentage equal to each shareholder's percentage of stock ownership.

The credit earned pursuant to this section by a general partnership, limited partnership, Limited Liability Company, or other entity taxed as a partnership must be passed through to its partners and may be allocated among partners, including without limitation, an allocation of the entire credit to one partner, in a manner agreed by the partners that is consistent with Subchapter K of the Internal Revenue Code. "Partner" means a partner, member, or owner of an interest in the pass-through entity, as applicable.
